INTRODUCTION

The 1994-95 Estimates set out details of the operating and capital spending requirements of ministries for the year commencing April 1st, 1994 and constitute the Government's formal request to the Legislature for approval of the expenditures involved. Once approved by the Legislature in the Supply Act, the Estimates become the legal spending authority for each ministry.

The services or Programs which ministries are responsible for delivering are each identified by a unique vote number within the Estimates. Votes in turn are sub-divided into items or activities in order to distinguish between their different functions. This program/activity structure permits the Legislature to be more specific in appropriating funds to particular services. Within each activity, expenditures are shown by standard account, i.e. salaries and wages, employee benefits, transportation and communication, services, transfer payments etc. (see explanatory notes on page vii).

For comparative purposes, Estimates and Actual amounts for prior years are provided on program summary and activity summary pages. These amounts are restated to provide comparability where functional reorganizations and transfers, Supplementary Estimates or accounting changes have occurred.

A reconciliation statement is shown on each Ministry's program summary page to relate previously published Estimates and Public Accounts actuals to any restated amounts.

Where it is necessary to seek the Legislature's approval for additional expenditures after the tabling of the Main Estimates, Supplementary Estimates may be tabled.

EXPLANATORY NOTES

NOTE: Expenditure is forecast for the fiscal year 1994-95 under eight Standard Accounts at the activity level. The descriptions of the contents of the Standard Accounts given below are intended to serve as brief outlines only and should not be considered all inclusive.

Services

Includes information services, such as, advertising and communication services provided by professional agencies and advertising placed directly with the media; rental and the purchased repair and maintenance of machinery, equipment, buildings, land and engineering structures; data processing services; insurance premiums; and other professional and special services.

Supplies and Equipment

Includes provision for the purchase of all machinery and equipment including motor vehicles and computers, both new and used; and the purchase of all materials, supplies and utilities.

Acquisition/Construction of Physical Assets

Transfer Payments

Includes grants, subsidies, assistance to persons; the business sector; non-commercial institutions; and other government bodies.

Other Transactions

Includes special transactions, such as interest incentives and subsidies; guarantees honoured; losses on loans; and repayable grants.

Note on Statutory Appropriations and Loans and Investments

Statutory Appropriations and Loans and Investments are not Standard Accounts. Amounts required for Statutory Appropriations and Loans and Investments are shown, where applicable, as separate entries under the Standard Accounts Classification details relating to each Activity.

Note on Cost-Recovery Activities

In cases where the anticipated recovery of costs of an activity is equal to or greater than the expenditures, the balance of the activity is shown at the nominal value of \$1,000. Recoveries in excess of expenditures, where these occur, will be added to general revenue.

Note on Special Warrants

Special Warrants are issued to authorize payments for the purpose of general and necessary government expenditures when the Legislature is not in session. The amounts provided by Special Warrants in the 1993-94 fiscal year were deducted from the total for each program to determine the amount to be voted.

IV. — CABINET OFFICE

SUMMARY

The Cabinet Office is the central agency which supports the Premier, his Cabinet and its committees in their efforts to set the broad direction and priorities of the Government, and in the determination of its legislative program. It co-ordinates the government's policy initiatives and provides support to the Premier and Cabinet on Order-in-Council appointments, Premier's Correspondence, Freedom of Information requests and other administrative issues. The primary clients served by the Office are the Premier, Cabinet and other central agencies and line ministries; however, some functions (such as Orders-in-Council, Freedom of Information and Premier's Correspondence) have direct contact with the public.

The Cabinet Office also advises on administrative/operational matters for the Office of the Premier and for other organizational units not directly attached to ministries, such as the Office of the Government House Leader.

The Premier's Councils report to the Premier and are funded through the Cabinet Office.

EQUITY AND ACCESS SERVICES PROGRAM:

Policy and Planning provides policy and research services and ensures compliance with French language service requirements in support of Ministry's programs. Other activities include liaison with and support to existing as well as emerging Ministry agencies, and a continued and comprehensive focus on disability issues.

In promoting full participation of all Ontarians in the life of the Province, Program Management supports equity and access in communities, organizations and institutions. Support is provided through grant assistance, consulting services on program design and standards, resource development, publications, and training initiatives, to enhance the quality of services delivered to immigrants and refugees; cultural, racial and linguistic minorities; people with disabilities and seniors. Grants support community projects, citizenship development, settlement and integration, labour market adjustment, access to professions and trades, and a community action fund support seniors and people with disabilities. Programs are also in place to recognize citizen participation and voluntarism.

Services to Aboriginal Peoples include community development in consultation and cooperation with their communities and organizations. Organizational development activities assist communities in achieving self government objectives, for example, economic self reliance, social and cultural integrity and aboriginal controlled services. Aboriginal participation is encouraged in the development and revision of programs, bringing aboriginal organizations together for joint planning and management of grants programming.

The Ontario Anti-Racism Secretariat works with ministries to help them provide customer service which is barrier free and resource effective. The Secretariat also provides assistance to community groups and organizations so that they increase the capacity, self sufficiency and leadership of racial minority and aboriginal stakeholder communities. The Secretariat assists communities in gaining equitable access to all government and non-government services and programs, and provides grants for community placements, demonstration projects, strategic project fund and strategic operational fund.

VI. — MINISTRY OF CITIZENSHIP

MINISTRY AGENCIES PROGRAM:

This program comprises arm's-length agencies, boards and commissions.

Three Ontario Advisory Councils advise the Ontario government through the Ministry of Citizenship on policies, practices and services related to Disability Issues, Multiculturalism and Citizenship, and Senior Citizens.

The Advocacy Project is responsible for ensuring the timely establishment of the Ontario Advocacy Commission whose mandate is to help vulnerable adults assert their rights and their autonomy and participate in making decisions about their lives. Rights advice will also be provided for those subject to loss of the right to make their own decisions about medical treatment, personal care and finances as provided for in the *Substitute Decisions Act*, the *Consent to Treatment Act*, the *Mental Health Act*, and the *Consent and Capacity Statute Law Amendment Act*.

The Office of the Employment Equity Commissioner advises the government, specifically the Minister of Citizenship, on implementation of mandatory employment equity legislation and issues associated with employment equity; advises, in an ongoing manner, on regulations pursuant to the legislation; develops and implements a comprehensive public education strategy and coordinates public education on employment equity with related ministries and agencies; conducts research and prepares supportive materials, including guidelines which complement the regulations; and provides vision and goals in the planning, transition, and creation of the Employment Equity Commission.

The Ontario Human Rights Commission is committed to the elimination of discrimination in society by providing the people of Ontario with strong leadership and quality service in the effective enforcement of the *Ontario Human Rights Code* and in the promotion and advancement of human rights.

The Tribunals' Office consists of the Boards of Inquiry Office; upon proclamation of the *Employment Equity Act*, the Employment Equity Tribunal; and the Pay Equity Hearings Tribunal. The Minister of Citizenship is responsible for the Boards of Inquiry Office and the Employment Equity Tribunal, and the Minister of Labour is responsible for the Pay Equity Hearings Tribunal. The Boards of Inquiry Office provides support to Boards of Inquiry, appointed by the Minister of Citizenship, to adjudicate complaints under the *Ontario Human Rights Code*. The Employment Equity Tribunal will be responsible for the adjudication of disputes arising under the *Employment Equity Act*. The Pay Equity Hearings Tribunal is responsible for the adjudication of disputes arising under the *Pay Equity Act*. The Tribunals' Office provides shared professional and administrative services to them.

BUSINESS PRACTICES PROGRAM:

This program supports a competitive economy in Ontario by encouraging the maintenance of an honest, equitable and informed marketplace. This is achieved through registering and regulating business under various consumer protection acts and monitoring industry behaviour through inspections and investigations where marketplace malfeasance is suspected. Also, the Division regulates three event-oriented areas of public entertainment, consisting of Theatres Act administration and support for the Ontario Film Review Board and the Athletics Control Act administration.

XI. — MINISTRY OF EDUCATION AND TRAINING

ELEMENTARY, SECONDARY, POSTSECONDARY AND TRAINING SUPPORT:

The program provides policy, curriculum, and program direction to elementary, secondary, postsecondary, and training institutions in Ontario in support of the government's social and economic policy objectives, including the creation of a lifelong learning culture throughout the province. Financial policies and accountability mechanisms are established and govern the transfer of public funds, both operating and capital, to local education and training delivery agents/authorities. Restructuring within the school, college, and university sectors is being promoted in accordance with government's broader public sector restructuring goals.

The program addresses learner access needs in a variety of ways including distance education courses, two French-language colleges, loan assistance to supplement personal/family resources of students attending eligible postsecondary institutions, and, operation of provincial elementary and secondary schools for the deaf, blind, deaf/blind, and students with severe learning disabilities and attention-deficit hyperactivity disorder. The program coordinates and monitors antiracist and ethnocultural equity measures taken by school boards, schools, colleges, and universities.

The program is responsible for negotiation of intergovernmental education and training policies and joint agreements. It maintains, on behalf of government, links with the Ontario Training and Adjustment Board. The program also supports a number of advisory agencies which provide advice to the Minister on funding and policies affecting the education and training system, including the specific educational needs of Aboriginals and Francophones. This complements ongoing relations and liaison maintained by the program with a wide range of education and training stakeholders in the province.

FINANCIAL STANDARDS PROGRAM:

This program provides for the regulation, supervision and policy direction of financial institutions operating in Ontario. The focus of the program is to safeguard the interests of the public dealing directly with the financial service sector while creating a business climate to increase Ontario's domestic and international competitiveness. This is achieved through disclosure to the public of the essential elements of business transactions including the issuing of securities, registration and licensing of persons dealing directly with the public to ensure a high degree of competence and honesty in their dealings, and examination and surveillance of the financial standing and practices of firms.

In addition, this program provides for the administration of the Motor Vehicle Accident Claims Act in respect of adjustment claims and payment of damages occasioned by the operation of stolen, unidentified or uninsured motor vehicles.

PROPERTY ASSESSMENT PROGRAM:

This program determines the valuation of all real property and prepares assessment rolls for purposes of taxation by local governments. Where assessment information has changed from the previous notification, assessment notices are issued to confirm to taxpayers the revised assessment values and the allocation of school support. The program provides an equitable basis of assessment for the distribution of provincial grants and subsidies to municipalities and school boards and the collection of Provincial Land Tax. In municipal election years, the program conducts a municipal enumeration to facilitate the production of preliminary voters' lists and municipal census data.

XVI. — MINISTRY OF HOUSING

SUMMARY

The Ministry of Housing, in partnership with other levels of government, other ministries, the private sector, and community-based non-profit groups, works to meet Ontario's needs for affordable, safe, secure and suitable homes in healthy, balanced communities. The Ministry supports the increased supply of affordable housing through a number of community based non-profit programs. Through the Ontario Housing Corporation and non-profit and cooperative housing providers, the Ministry provides capital assistance for, and subsidizes the operation of, socially assisted housing units, including units for residents with special needs. It provides advocacy support for affordable housing, works with other Ontario Government agencies to optimize the use of government land for housing, and with other ministries to streamline and reform the land use planning process and housing development regulatory environment. The Ministry of Housing also provides financial assistance for the rehabilitation of the existing housing stock, and the modification of housing to meet the needs of disabled persons. It administers the Rent Control Act, which regulates residential rents and provides for tenant protection and adequate building maintenance, and the Rental Housing Protection Act, which controls rental conversions, demolitions and renovations. The Ministry is responsible for the Ontario Building Code and the Ontario Plumbing Code, which regulate the construction and renovation of all buildings in the Province to ensure high standards of building safety, health and accessibility, while facilitating cost-effective approaches for building construction and renovation.

HOUSING AND RENT CONTROL OPERATIONS PROGRAM:

A major objective of this program is to respond to the needs of Ontario residents for socially assisted housing in conjunction with the non-profit and cooperative housing sectors, the private sector, other ministries, and other levels of government. Activities encompass social housing program development and the delivery and administration of a variety of socially assisted housing programs. This includes the delivery and administration of Provincial non-profit housing programs, and the provision and management by Ontario Housing Corporation of rent-gear-to-income housing for low and modest income families, senior citizens, disabled persons, and other eligible persons, to ensure their access to affordable, well-maintained, and secure shelter.

A second major objective of this program is to administer the Rent Control Act, which is designed to protect tenants from excessive rent increases and to preserve and maintain adequate rental housing in Ontario. Activities include: resolving applications for rent revisions and related matters filed by landlords and tenants; providing information to the public on all residential tenancy matters; administering the rent registry; and reviewing and recommending appropriate action concerning applications for exemptions under the Rental Housing Protection Act.

XVIII. — MINISTRY OF LABOUR

SUMMARY

The mission of the Ministry of Labour is to advance safe, fair and harmonious workplace practices which are essential to the social and economic well-being of the people of Ontario. In this context, the Ministry develops, administers, enforces and adjudicates laws and regulations to establish and maintain: workplace standards for the people of Ontario; safe, healthy work environments; fair and effective assistance in the event of workplace injury or disease; the right of employees to seek representation and of unions to bargain collectively; constructive and harmonious labour-management relations; and equity in the workplace. All people of Ontario have a contribution to make to the vitality of the province's labour force irrespective of differences and in celebration of diversity.

To achieve this, our commitments to the public are: to develop policies and legislation through effective consultation; to ensure that programs and services are responsive to a changing community and to labour market needs; to foster self-reliance among employers, employees and their representatives to establish and sustain safe workplaces and fair employment practices; to generate public support for equitable workplaces and harmonious employer-employee relations; to provide the public with the information it needs to understand its rights and obligations established in legislation; and to assure the protection of workers through the effective enforcement of legislation.

LABOUR RELATIONS PROGRAM:

The Ontario Labour Relations Board (OLRB) is a quasi-judicial tribunal with responsibility for administering the *Labour Relations Act*. Its activities include trade union certification, unfair labour practices, first contract arbitration, strike/lockout issues, jurisdictional disputes and the arbitration of construction industry grievances. With the recent passage of Bill 117, amending the *Crown Employees Collective Bargaining Act (CECBA)*, the Board is now responsible for the labour relations of Ontario's Crown employees. The Board is also entrusted with the responsibility of protecting employees in exercising their rights under such statutes as the *Occupational Health and Safety Act* and the *Environmental Protection Act*.

The four statutory tribunals comprising the Public Service Appeal Boards are independent quasi-judicial tribunals that oversee the labour relations of Ontario Crown employees. They include the Ontario Public Service Labour Relations Tribunal (OPSLRT), the Crown Employees Grievance Settlement Board, the Public Service Grievance Board and the Classification Rating Committees. Bill 117 will ultimately transfer all of the OPSLRT's responsibilities to the OLRB, once the OPSLRT disposes of the last matter referred to it under *CECBA* prior to amendment.

INTRODUCTION

The 1994-95 Estimates set out details of the operating and capital spending requirements of ministries for the year commencing April 1st, 1994 and constitute the Government's formal request to the Legislature for approval of the expenditures involved. Once approved by the Legislature in the Supply Act, the Estimates become the legal spending authority for each ministry.

The services or Programs which ministries are responsible for delivering are each identified by a unique vote number within the Estimates. Votes in turn are sub-divided into items or activities in order to distinguish between their different functions. This program/activity structure permits the Legislature to be more specific in appropriating funds to particular services. Within each activity, expenditures are shown by standard account, i.e. salaries and wages, employee benefits, transportation and communication, services, transfer payments etc. (see explanatory notes on page vi).

For comparative purposes, Estimates and Actual amounts for prior years are provided on program summary and activity summary pages. These amounts are restated to provide comparability where functional reorganizations and transfers, Supplementary Estimates or accounting changes have occurred.

A reconciliation statement is shown on each Ministry's program summary page to relate previously published Estimates and Public Accounts actuals to any restated amounts.

Where it is necessary to seek the Legislature's approval for additional expenditures after the tabling of the Main Estimates, Supplementary Estimates may be tabled.

EXPLANATORY NOTES

NOTE: Expenditure is forecast for the fiscal year 1994-95 under eight Standard Accounts at the activity level. The descriptions of the contents of the Standard Accounts given below are intended to serve as brief outlines only and should not be considered all inclusive.

Salaries and Wages

Includes salaries and wages, overtime and other remuneration paid to regular, probationary, unclassified and other staff; temporary help costs; indemnities and allowances paid to Members of the Legislative Assembly; and special allowances paid to employees.

Employee Benefits

Includes the government's contribution as an employer to the Canada Pension Plan; the Public Service Pension Fund; the Unemployment Insurance Fund; the Workers' Compensation Board; and other employee benefit plans.

Transportation and Communication

Includes travelling expenses of employees on government business and recipients of government services, such as wards of the Province; relocation expenses of employees who are transferred or recruited; expenses of moving office furniture and equipment; costs of transportation of goods other than for initial delivery; mailing costs, such as postage and registration; and communication costs, such as telephone, telegram, and data communications.

Services

Includes information services, such as, advertising and communication services provided by professional agencies and advertising placed directly with the media; rental and the purchased repair and maintenance of machinery, equipment, buildings, land and engineering structures; data processing services; insurance premiums; and other professional and special services.

Supplies and Equipment

Includes provision for the purchase of all machinery and equipment including motor vehicles and computers, both new and used; and the purchase of all materials, supplies and utilities.

Acquisition/Construction of Physical Assets

Includes all costs of acquisition and construction by contract of new and used buildings and engineering structures; and the cost of acquisition of land.

Transfer Payments

Includes grants, subsidies, assistance to persons; the business sector; non-commercial institutions; and other government bodies.

Other Transactions

Includes special transactions, such as interest incentives and subsidies; guarantees honoured; losses on loans; and repayable grants.

Note on Statutory Appropriations and Loans and Investments

Statutory Appropriations and Loans and Investments are not Standard Accounts. Amounts required for Statutory Appropriations and Loans and Investments are shown, where applicable, as separate entries under the Standard Accounts Classification details relating to each Activity.

Note on Cost-Recovery Activities

In cases where the anticipated recovery of costs of an activity is equal to or greater than the expenditures, the balance of the activity is shown at the nominal value of \$1,000. Recoveries in excess of expenditures, where these occur, will be added to general revenue.

Note on Special Warrants

Special Warrants are issued to authorize payments for the purpose of general and necessary government expenditures when the Legislature is not in session. The amounts provided by Special Warrants in the 1993-94 fiscal year were deducted from the total for each program to determine the amount to be voted.

XXV. - OMBUDSMAN ONTARIO

SUMMARY

The role and responsibilities of the Ombudsman are set out in the Ombudsman Act. The Ombudsman may investigate complaints about the Provincial government or one of its more than 500 agencies, boards or commissions and recommend corrective action to be taken in those cases where the Ombudsman decides that there is substance to the complaint. These concerns may be raised by individuals or on the Ombudsman's own motion because of some action that has been taken or neglected by an official, or from some decision or recommendation which is alleged to be unfair, unreasonable or arbitrary. The Ombudsman is an officer of the Legislature; she is independent and neutral of the political process and of the bureaucracy. The Ombudsman submits an annual report to the Legislature and can issue special reports as appropriate. Every inquiry is responded to and a professional referral system is used and constantly updated and enlarged. To ensure accessibility, nine district offices are located throughout the province and a toll-free number is available. All services are free to the public and information received is kept confidential.
